## PROFILE

Detail-oriented Software Developer and Data Analyst with experience in AI-assisted software development, business intelligence, and data-driven decision-making. Skilled in Python, SQL, Power BI, Excel, Git/GitHub, and AI tools. Passionate about developing innovative applications, optimizing business processes, and creating impactful digital products.

## PROFESSIONAL EXPERIENCE

**Software Developer Intern | AmbuGrid System LLP, AmbuGrid System LLP** [🔗](#) Jun 2026 – Present  
Pune, India

- Contributed to the development of the AI Financial Consultant application by coordinating development tasks, reviewing progress, and supporting feature implementation.
- Collaborated with the development team using Git/GitHub and modern development tools.
- Assisted with API integration, testing, debugging, and application deployment.

**Data Analyst Intern, Yadgreen Saudi Arabia** [🔗](#) Feb 2026 – May 2026  
Pune, India

- Analyzed and cleaned 50K+ records using SQL and EDA techniques.
- Developed 3+ Power BI dashboards for KPI reporting and business insights.
- Optimized 15+ SQL queries and ETL workflows to improve reporting performance.
- Delivered 20+ business KPIs through interactive dashboards and visualizations.

## PROJECTS

**Machine Learning-Based Stock Market Prediction Dashboard** [🔗](#) Aug 2025 – Sep 2025

- Machine Learning-Based Stock Market Prediction Dashboard
- Developed a stock market prediction dashboard using Python, Streamlit, and Scikit-Learn.
- Built a Linear Regression model using historical market data and technical indicators (MA100, MA200, RSI).
- Visualized stock trends, predictions, and technical indicators through an interactive Streamlit dashboard.
- Evaluated model performance using  $R^2$  score and cross-validation techniques.

**Weather Forecasting KPI Dashboard | Power BI, REST API** [🔗](#) Jul 2025 – Jul 2025

- Developed an interactive Power BI dashboard using real-time weather API data.
- Performed data transformation using Power Query and created DAX measures for KPI reporting.
- Designed interactive dashboards with maps, slicers, trend analysis, and weather insights.
- Automated data refresh to improve reporting efficiency and dashboard usability.

**Cab Booking Database System | MySQL** [🔗](#) Oct 2025 – Nov 2025

- Designed a relational database system with customers, drivers, cabs, bookings, trips, and feedback modules.
- Created ER diagrams and implemented Primary Key, Foreign Key, UNIQUE, and CHECK constraints.
- Wrote SQL queries to analyze driver performance, booking trends, customer activity, and revenue.
- Optimized database design to maintain data integrity and efficient querying.

**AI-Assisted Cafe Management & AR Ordering Platform** [🔗](#) Mar 2026 – Jul 2026

- AI-Assisted Cafe Management & AR Ordering Platform (MenuVista).
- Developed and deployed an AI-assisted Cafe Management & AR Ordering Platform for local cafés.
- Successfully onboarded 5 local café businesses.
- Built features including QR Menu, AR Menu, Ordering, Payments, Analytics, and Admin Dashboard using AI-assisted development.
- Worked directly with café owners to gather requirements, customize features, deploy the solution, and provide technical support.

## TECHNICAL SKILLS

**Languages & Libraries**

- Python (NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn, Streamlit)

**Databases**

- SQL — Joins, Subqueries, Window Functions, Stored Procedures, Query Optimization, PL/SQL

**Statistics**

- Hypothesis Testing, Outlier Detection, Variance Analysis, Probability, Descriptive & Inferential Statistics, A/B Testing

**BI & Visualization**

- Power BI (DAX, Power Query, Data Modeling, KPI Dashboards, Row-Level Security) · Advanced Excel (Pivot Tables, Power Query, VBA Macros, Dynamic Dashboards) · Matplotlib, Seaborn · Tableau (basic)

**Tools & Platforms**

- Jupyter Notebook, VS Code, Git & GitHub, XAMPP, REST API Integration, Agile / Scrum
